

06-785A

Wahl Lube Kit Mounting Instructions

Wahl Bros. Racing offers an entire lube system for use in Oval racing, 06-785A Lubrication System. Parts can also be purchased separately. Lube tank and tank hardware is sold separately.

This lube system includes:

- A. Six lube line inserts for restricting and helping to regulate the flow of fluid through the line. Install the aluminum lube line insert into each of the six delivery hoses.
- B. Four T fittings.
- C. Four Side lube fittings with clamps. Mount on right side of each suspension rail.
- D. Two 90 degree fittings with grommet for running the lines through the side of tunnel.
- E. One dual outlet fuel pump.
- F. One shut off valve.
- G. Two Brass Lube Line fittings.
- H. 10 ft. of 3/16" fuel line.
