

Rubber Track w/Torsion Spring Rear Scissor

- | | |
|-----------------------------|-------------------|
| 1. 8 Tooth Drive Wheel | 14" |
| 2. 9 Tooth Drive Wheel | 13 $\frac{1}{4}"$ |
| 3. 10 Tooth Drive Wheel | 12" |
| 4. 116" = 19 $\frac{3}{4}"$ | |
| 5. 121" = 23 $\frac{1}{2}"$ | |
| 6. 128" = 27 $\frac{1}{4}"$ | |
| 7. 136" = 31" | |
| 8. 144" = 34 $\frac{3}{4}"$ | |

- If the measurements from the top of the tunnel to the front and/or rear mount holes are different than specified, you must move both mount holes the same distance. For example, if you raise the front hole $\frac{1}{2}"$, you must also raise the rear hole by $\frac{1}{2}"$.
